new 24" fhd-led tv Onida unveils India's First 24" FHD LCD TV: Mirc Electronics Ltd. (ONIDA), offers once again for the first time in India a product truly unique for the Indian consumers - the 24M Full High Definition (FHD) LCD TV. It is the only LCD TV in its size range to be designed with FULL HD capability. Most other LCD TVs offer Full HD only on their 32" (81 cm) range and above. Onida has thus significantly lowered the bar and ensured that there is no compromise on viewing quality even at the entry level. Besides, this feature-packed product includes some of the most exciting features such as: - Movie TV - a USB 2.0 port that allows users to play movies, listen to music and watch pictures; HDMI - Connects digital audio or video sources; 200 Watts PMPO This new sensational LCD at a special introductory price of only Rs. 17,990/-.
