Onida G594 - Dual Sim Mobile with FM Radio

ONIDA announced the launch of new Dual GSM Music Phone ONIDA G594 FMX that allows consumers to listen to their choice of songs directly from their mobile aloud on the music system. Just ensure that you have access to any radio frequency!

ONIDA has designed this model to help consumers enliven an otherwise boring environment by playing the songs of their choice from their mobile simply by pairing it to any radio channel frequency. This mobile is designed especially for those who travel often and like to listen to songs aloud.

Priced at Rs. 2500, ONIDA G594 FMX mobile comprises of an FM Radio, dual GSM, and 2.4" TFT Display and a Blue Tooth with A2DP. Additionally, the phone is equipped with a dual memory card slot expandable up to 8GB, a VGA camera, an audio-video recorder and a 1050mAh battery with 8 hours of talk time.

Further, the mobile also includes features such as a call recorder, FM recorder, a unique anti theft mobile tracker and GPRS facility with private protection. This mobile is easily save upto 1000 phone book contacts and also record 400 SMS. It comprises a MP4 video player and an audio player.
