### **Onida G594 - Dual Sim Mobile with FM Radio**

Onida G594 is one of the latest mobile phone launched by the company that is a basic model with needed features. This phone supports dual SIM GSM compatibility and features dual standby option as well.

Its 2.4 inches of TFT display screen is capable of supporting basic resolution for clear content viewing. Onida G594 supports microSD and T flash card which facilitates memory expansion by up to 8GB. The SMS storage capacity of the phone is 400 whereas its phone book can store up to 1000 entries.

On connectivity front the phone features Bluetooth and USB that provides connectivity with other devices and its GPRS feature along with WAP browser facilitates internet access. Onida G594 comes equipped with 0.3 MP VGA camera that features digital zoom and video recording. Other multimedia options include FM radio with recording, MP3 player with audio recording and 3.5mm audio jack, games and video player.

There is 1000 mAh of battery in the phone that delivers talk time of around 6 hours so that you can talk to your near and dear ones for long hours.
